Subject: Geospatial Technology Competency Model (GTCM) 2018 Update: Tier 1 Questionnaire

Date: Monday, January 15, 2018 7:13:54 AM

[External Email - Be careful! DO NOT open attachments or click links from unknown senders or unexpected email.]

Everyone,

The update to the Geospatial Technology Competency Model (GTCM) will review Tiers 1 - 5.

- Tier 1 - Personal Effectiveness Competencies
- Tier 2 - Academic Competencies
- Tier 3 – Workplace Competencies
- Tier 4 - Industry-Wide Technical Competencies
- Tier 5 - Industry - Sector Technical Competencies

In collaboration with the US Department of Labor, the National Geospatial Technology Center (http://www.geotechcenter.org/) is updating the Geospatial Technology Competency Model (GTCM). We are conducting this evaluation to determine what modifications are needed for the existing competency model. Your input will be aggregated and provided to another panel for review.

Listed in Tier 1 - 3 are examples of competencies that many geospatial professionals will be expected to demonstrate during their careers. **Tier 1 – Personal Effectiveness Competencies are personal attributes essential for all life roles. Often referred to as "soft skills," personal effectiveness competencies are generally learned in the home or community and honed at school and in the workplace.**

Please complete the Tier 1 Questionnaire by 1/19/2018: https://www.surveymonkey.com/r/GP8GLLL

Rodney Jackson
Assistant Director

National Geospatial Technology Center of Excellence
